

RESEARCH REPORT

ON

**A STUDY OF FACTORS REGARDING FIRM CHARACTERISTICS THAT
AFFECT FINANCING DECISIONS OF PUBLIC COMPANIES LISTED ON THE
STOCK EXCHANGE OF THAILAND**

BY

**THANIDA CHITNOMRATH, D.B.A.
THE GRADUATE SCHOOL, DHURAKIJ PUNDIT UNIVERSITY**

**THE RESEARCH HAS RECEIVED A RESEARCH GRANT FROM
DHURAKIJ PUNDIT UNIVERSITY**

2011

Acknowledgement

This study received a research fund from Dhurakij Pundit University. So, I am grateful to acknowledge Dhurakij Pundit University for its financial support. I am also thankful to the President and Vice Presidents of Dhurakij Pundit University for giving support to academic staff in doing research projects. Finally, I would like to thank two anonymous referees for their useful comments.

Table of Contents

Abstract (in Thai).....	i
Abstract (in English)	iii
Acknowledgements.....	v
Table of contents.....	vi
List of Tables.....	ix
List of Figures.....	xi
Chapter 1: Introduction	
1.1 Background to the study	1
1.2 Research objectives	3
1.3 Significance of the study	3
1.4 Organization of the paper	4
Chapter 2: Literature review and hypothesis development	
2.1 The important capital structure theories	6
2.1.1 The trade – off theory	7
2.1.2 The pecking order theory	9
2.1.3 Firm characteristics and financing decisions	11
2.2 Hypothesis development	12
2.2.1 Firm size	12
2.2.2 Liquidity	13
2.2.3 Fixed assets	13
2.2.4 Profitability	14
2.2.5 Financial risk	14
2.2.6 Dividend policy	15
2.2.7 Firm Growth	15
2.3 Summary	18

Chapter 3: Research Methodology

3.1 The sample and data collection	20
3.2 Definitions and measurements of variables	21
3.2.1 The dependent variable	21
3.2.2 Independent variables	22
3.2.2.1 Firm size (SIZE)	22
3.2.2.2 Liquidity (LIQD)	22
3.2.2.3 Fixed assets (FASST)	23
3.2.2.4 Profitability (PROF)	23
3.2.2.5 Financial risk (FRSK)	23
3.2.2.6 Dividend policy (DIVD)	24
3.2.2.7 Firm growth (GROW)	24
3.2.3 The control variable	25
3.3 Data analysis	25
3.4 Summary	27

Chapter 4: Empirical results and hypotheses testing

4.1 The final sample size for analysis	28
4.2 Descriptive results	29
4.2.1 The dependent variable	29
4.2.2 Independent variables	32
4.2.2.1 Firm size	32
4.2.2.2 Liquidity	34
4.2.2.3 Fixed assets	35
4.2.2.4 Profitability	37
4.2.2.5 Financial risk	38
4.2.2.6 Dividend policy	40
4.2.2.7 Firm growth	42
4.2.3 The control variable	45
4.3 The results of the ordinary least squares regression analysis.....	47
4.3.1 Assumption for statistical tests	47
4.3.1.1 Normal distribution	47
4.3.1.2 Check for heteroscedasticity	49
4.3.1.3 Check for multicollinearity	50

4.3.2 The regression model	50
4.3.3 The ordinary least squares regression results	51
4.4 The results of hypotheses testing	55
4.4.1 Firm size	55
4.4.2 Liquidity	56
4.4.3 Fixed assets	56
4.4.4 Profitability	57
4.4.5 Financial risk	58
4.4.6 Dividend policy	58
4.4.7 Firm growth	59
4.5 Summary	61
Chapter 5: Conclusions	
5.1 Summary of the study	62
5.2 Implications of the study findings	65
5.2.1 Theoretical implications	65
5.2.2 Practical implications	66
5.3 Suggestions for future research	66
References	68
Appendix: A list of Thai listed companies in the sample	72

List of Tables

Table 2.1: Financing decisions following the pecking order theory	10
Table 2.2: The Firm characteristics and their expected signs on financing decisions following the trade - off and pecking order theories	12
Table 2.3: A list of research hypotheses of the study	16
Table 3.1: A summary of definitions and expected signs of independent variables....	25
Table 4.1: Sample firms as classified by industry type	29
Table 4.2: Minimum, maximum, mean and standard deviation of book and market values of total debt ratio of total sample firms (220 companies)	29
Table 4.3: Minimum, maximum, mean and standard deviation of book and market values of total debt ratio of sample firms in each industry	31
Table 4.4: Minimum, maximum and mean values including standard deviation of size of sample firms in all and each industry	32
Table 4.5: Minimum, maximum and mean values including standard deviation of liquidity of sample firms in all and each industry	34
Table 4.6: Minimum, maximum and mean values including standard deviation of the percentage of fixed assets of sample firms in all and each industry....	36
Table 4.7: Minimum, maximum and mean values including standard deviation of profitability of sample firms in all and each industry	37
Table 4.8: Minimum, maximum and mean values including standard deviation of financial risk of sample firms in all and each industry	39
Table 4.9: Minimum, maximum and mean values including standard deviation of dividend policy of sample firms in all and each industry.....	41
Table 4.10: Minimum, maximum and mean values including standard deviation of firm growth of sample firms in all and each industry	42
Table 4.11: A number of companies with criteria of each variable	45
Table 4.12: Numbers of companies in each industry having total debt ratio in book value less and more than 50%	46
Table 4.13: Descriptive statistics of continuously independent variables before transformation	47
Table 4.14: Descriptive statistics of continuously independent variables after transformation	48

Table 4.15: Descriptive statistics of book and market values of total debt ratio	48
Table 4.16: Pearson correlation coefficients	50
Table 4.17: Empirical results of specific firm characteristics on financing decisions as measured by the book value (BV) of total debt ratio.....	52
Table 4.18: Empirical results of specific firm characteristics on financing decisions as measured by the market value (MV) of total debt ratio....	53
Table 4.19: Tolerance and Variance Inflation Factors (VIF) based on 220 sample companies	54
Table 4.20: Results of hypotheses testing	60
Table 5.1: A comparison of firm characteristics signs on financing decisions between assumptions of the trade - off and pecking order theories and the empirical results of Thai listed companies	64

List of Figures

Figure 2.1: The optimal debt ratio and the maximum firm value (V) following the trade - off theory	8
Figure 2.2: The optimal debt ratio and the lowest weighted average cost of capital (K_{WACC}) following the trade - off theory	8
